#### **NUVISTA ENERGY LTD.**

#### **Notes to the Consolidated Interim Financial Statements**

Three and six months ended June 30, 2022 with comparative figures for 2021. All tabular amounts are in thousands of Canadian dollars, unless otherwise stated.

### 1. Corporate information

NuVista Energy Ltd. and its subsidiary (together "NuVista" or the "Company") is a Canadian publicly traded company incorporated in the province of Alberta. The Company is a condensate and natural gas company actively engaged in the development, delineation, and production of condensate and natural gas reserves in the Western Canadian Sedimentary Basin. NuVista's focus is on the scalable and repeatable condensate-rich Montney formation in the Alberta Deep Basin.

The address of the Company's head office is 2500, 525 - 8th Avenue S.W., Calgary, Alberta, Canada, T2P 1G1.

### **Basis of preparation**

These condensed consolidated interim financial statements (the "financial statements") have been prepared in accordance with International Accounting Standards ("IAS") 34, "Interim Financial Reporting". These financial statements have been prepared following the same accounting policies and methods of computation as the annual financial statements for the year ended December 31, 2021, except as noted below. These financial statements do not include all the information required for annual financial statements and should be read in conjunction with the audited financial statements for the year ended December 31, 2021, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

During the first guarter of 2020, the World Health Organization declared COVID-19 to be a pandemic. Responses to the spread of COVID-19 resulted in a sudden decline in economic activity and resulted in a significant increase in economic uncertainty. In addition, oil prices declined dramatically due to the global oil price war and decline in demand due to COVID-19. Throughout 2021 and the first half of 2022, both oil and gas prices improved significantly, largely due to a combination of improved global economic activity combined with reduced oil and natural gas supply, and the roll out of COVID-19 vaccinations. Estimates and judgments made by management in the preparation of the consolidated interim financial statements are increasingly difficult and subject to a higher degree of measurement uncertainty during this volatile period.

These financial statements were approved and authorized for issuance by the Board of Directors on August 2, 2022.

### 3. Changes in significant accounting policies

### Share capital

Common shares are classified as equity. Incremental costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity, net of any tax effects. When NuVista repurchases its own common shares, share capital is reduced by the average carrying value of the shares repurchased. If the average carrying value of the shares exceeds the purchase price, the difference will be recognized as contributed surplus. If the purchase price exceeds the average carrying value of the shares, any previous contributed surplus related to such transactions is reversed. To the extent there is none, the difference is recognized as a reduction to retained earnings. Shares are cancelled upon repurchase.

### 4. Exploration and evaluation assets

	June 30, 2022	December 31, 2021
Accumulated depletion, depreciation, amortization and impairment		
Balance, January 1	\$ 1,332,352	\$ 1,364,000
Depletion, depreciation and amortization ("DD&A")	90,093	155,073
Dispositions	_	(23,543)
Impairment expense (reversal)	_	(163,178)
Balance, end of period	\$ 1,422,445	\$ 1,332,352

	June 30, 2022	D	ecember 31, 2021
Carrying value			
Balance, January 1	\$ 2,177,379	\$	1,947,998
Balance, end of period	\$ 2,298,441	\$	2,177,379

Future development costs of \$2.2 billion were included in the determination of DD&A for the six months ended June 30, 2022 (2021 - \$2.2 billion).

At June 30, 2022 and at December 31, 2021, there were no indicators of impairment identified in any of the Company's CGUs within property, plant & equipment and an impairment test was not performed.

At September 30, 2021, there were indicators of reversal of impairment identified in NuVista's Montney CGU primarily as a result of improved forward commodity prices for natural gas and condensate, improving well economics and improvements to economic cutoff limits on reserve evolution, continued strong well performance, and a significantly improved share price. An impairment test was performed on PP&E assets. PP&E assets were assessed based on the recoverable amount estimated using a value in use calculation based on expected future cash flows generated from proved and proved plus probable reserves using pre-tax discount rates ranging from 10% to 20% based on an internally prepared reserves report. A total impairment recovery of \$163.2 million net of depletion was recognized at September 30, 2021 in NuVista's Montney CGU, which has been included in the depletion, depreciation, amortization and impairment expense.

The following benchmark price forecasts (1) were used to calculate the recoverable amounts:

	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030 <sup>(2)</sup>

### 7. Property dispositions

	Three mo	onths ended June 30	Six mo	 s ended June 30
	2022	2021	2022	2021
Proceeds from dispositions	\$ _	\$ —	\$ 1,280	\$ 93,578
Exploration and evaluation disposed	_	_	_	(4,912)
Property, plant and equipment, net of accumulated DD&A disposed	_	_	_	(70,842)
Asset retirement obligations disposed	408	_	408	17,551
Gain on dispositions	\$ 408	\$ —	\$ 1,688	\$ 35,375

For the six months ended, June 30, 2022, the Company disposed of properties for non cash proceeds of \$1.3 million compared to cash proceeds of \$93.6 million for the prior year comparative period. A gain on dispositions of \$1.7 million was recorded for the six months ended June 30, 2022 compared to a gain of \$35.4 million for the first quarter of 2021.

<sup>(2) 2031</sup> and beyond commodity price forecasts are inflated at 2.0% per annum. In 2031 and beyond there is no escalation of exchange rates.

#### Long-term debt

At June 30, 2022, the Company had a \$440 million (December 31, 2021 - \$440 million) extendible revolving term credit facility available from a syndicate of Canadian chartered banks. Borrowing under the credit facility may be made by prime loans and bankers' acceptances. These advances bear interest at the bank's prime rate and/or at money market rates plus a borrowing margin. For the six months ended June 30, 2022, borrowing costs averaged 4.1% (December 31, 2021 – 4.3%). The credit facility is secured by a first floating charge debenture, general assignment of book debts and the Company's condensate and natural gas properties and equipment. The credit facility has a tenor of two years with a maturity date of May 31, 2024 and is subject to an annual review by the lenders. During the revolving period, a review of the maximum borrowing amount occurs annually on or before May 31 and semi-annually on or before November 30. During the term period, no principal payments would be required until a year after the revolving period matures on May 31, 2024 in the event of a reduction or the credit facility not being renewed. The annual review was completed on June 9, 2022, with no change to the credit facility capacity, and the credit facility now incorporates sustainability linked performance features.

The conversion of the Corporation's credit facility to a sustainability-linked loan ("SLL") allows us to link our performance on key sustainability themes to our borrowing costs, whereby rates increase or decrease depending on whether we meet or miss the established annual sustainability performance targets ("SPTs") related to:

- A reduction of Scope 1 & 2 GHG Intensity;
- Increased spending on asset retirement obligations, over and above the minimum Alberta Energy Regulator established regulations as well as the number of well sites moved through the assessment and remediation process; and
- · Gender diversity at the Board of Directors level.

Successfully achieving these SPTs will result in a decrease to the ongoing costs of the SLL Facility, and conversely, NuVista will incur an increase to the ongoing costs if it fails to meet the SPTs. The SPTs are important to our business plan and corporate values while demonstrating our continuing commitment to the environment.

As at June 30, 2022, the Company had drawn \$56.9 million on its term credit facility (December 31, 2021 -\$196.1 million) and had outstanding letters of credit of \$7.1 million (December 31, 2021 - \$7.0 million) which reduce the credit available on this credit facility. The credit facility does not contain any financial covenants, but the Company is subject to various non-financial covenants under its credit facility. These covenants are monitored on a regular basis and as at June 30, 2022, the Company was in compliance with all covenants.

The Company has a \$30 million unsecured letter of credit facility under Export Development Canada's ("EDC") Account Performance Security Guarantee ("APSG") program. At June 30, 2022, the Company had outstanding letters of credit associated with the APSG of \$22.7 million (December 31, 2021 - \$18.1 million), leaving \$7.3 million of credit available on this facility.

#### Senior unsecured notes

On July 23, 2021, the Company issued \$230.0 million aggregate principal amount of 7.875% senior unsecured notes due July 23, 2026 ("2026 Notes"). The 2026 Notes were issued at \$989.89 expressed as a price per \$1,000.00 principal amount. Interest is payable semi-annually in arrears. The 2026 Notes are fully and unconditionally guaranteed as to the payment of principal and interest, on a senior unsecured basis by the Company. There are no maintenance or financial covenants.

The 2026 Notes are non-callable by the Company prior to July 23, 2023. At any time on or after July 23, 2023, the Company may redeem all or part of the 2026 Notes at the redemption prices set forth in the table below plus any accrued and unpaid interest:

12 month period beginning on:	Percentage
July 23, 2023	103.938%
July 23, 2024	101.969%
July 23, 2025 and thereafter	100.000%

If a change of control occurs, each holder of the 2026 Notes will have the right to require the Company to purchase all or any part of that holder's 2026 Notes for an amount in cash equal to 101% of the aggregate principal repurchased plus accrued and unpaid interest.

### 10. Lease liabilities

The Company has the following future commitments associated with its lease obligations relating to office leases, gas processing and gas transportation commitments:

	June 30, 2022	December 31, 2021
Balance, January 1	\$ 122,030	\$ 125,959
Lease interest expense	6,448	13,248
Payment of leases	(8,956)	(17,177)
Balance, end of period	\$ 119,522	\$ 122,030
Current portion of lease liabilities	\$ 5,602	\$ 5,300
Non current portion of lease liabilities	\$ 113,920	\$ 116,730

The following table details the undiscounted cash flows and contractual maturities of NuVista's lease liabilities:

	June 30, 2022	December 31, 2021
Less than 1 year	\$ 18,093	\$ 18,062
1-3 years	52,974	53,397
4-5 years	34,610	34,539
After 5 years	108,944	117,578
Total undiscounted future lease payments	\$ 214,621	\$ 223,576
Amounts representing lease interest expense over the term of the lease	(95,099)	(101,546)
Present value of net lease payments	\$ 119,522	\$ 122,030

### 11. Asset retirement obligations

	June 30, 2022	December 31, 2021
Balance, January 1	\$ 120,237	\$ 139,965
Accretion expense	1,560	2,213
Liabilities incurred	2,871	4,842
Liabilities disposed	(408)	(17,551)
Change in estimates	1,354	3,148
Change in discount rate	(25,323)	(5,654)
Liabilities settled (cash)	(6,752)	(5,478)
Liabilities settled (non-cash) (1)	(6,030)	(1,248)
Balance, end of period	\$ 87,509	\$ 120,237
Expected to be incurred within one year	\$ 10,200	\$ 7,075
Expected to be incurred beyond one year	\$ 77,309	\$ 113,162

<sup>(1)</sup> Liabilities settled (non-cash) of \$6.0 million (2021 - \$1.2 million) were funded by payments made directly to NuVista's service providers from the Alberta Site Rehabilitation program ("SRP") with respect to approved abandonment and reclamation expenditures. These amounts have been recorded as "Other Income"

The Company's asset retirement obligations are based on estimated costs to reclaim and abandon ownership interests in condensate and natural gas assets including well sites, gathering systems and processing facilities. At June 30, 2022, the estimated total undiscounted, uninflated amount of cash flows required to settle the asset retirement obligations is \$111.2 million (December 31, 2021 - \$117.1 million), of which 28% is estimated to be incurred within the next 10 years. The Government of Canada benchmark long-term risk-free bond rate of 3.1% (December 31, 2021 - 1.7%) and an inflation rate of 1.8% (December 31, 2021 - 1.8%) were used to calculate the net present value of the asset retirement obligations. The inflation rate was determined as the difference between the Government of Canada long-term risk free rate bond rate of 3.1% (December 31, 2021 - 1.7%) and the real rate of interest of 1.36% (December 31, 2021 - (0.14)%).

### 12. Share capital

### Common shares

		2022		2021
	Jı	ıne 30, 2022	Decemb	per 31, 2021

Repurchase of shares for cancellation	(2,556,800)	(13,807)	_	
Balance, end of period	228,459,814	\$ 1,235,076	227,578,334 \$	1,228,275

On June 9, 2022, NuVista announced the approval of its normal course issuer bid ("NCIB"). The NCIB allows NuVista to purchase up to 18,190,261 of its outstanding common shares over a 12 month period, commencing June 14, 2022. During the six months ended June 30, 2022, NuVista repurchased and subsequently cancelled 2,556,800 common shares at a weighted average price of \$10.79 for a total cost of \$27.6 million.

Subsequent to June 30, 2022, the Company repurchased and subsequently cancelled 2,057,400 common shares at a weighted average price of \$9.70 for a total cost of \$20.0 million.

### 13. Earnings (loss) per share

The following table summarizes the weighted average common shares used in calculating net earnings per share:

	Three months	ended June 30	Six months	ended June 30
(thousands of shares)	2022	2021	2022	2021
Weighted average common shares outstanding				
Basic	229,595	226,045	228,875	225,944
Diluted	239,405	226,045	238,801	231,027

### 14. Petroleum and natural gas revenues

NuVista produces natural gas, condensate, and NGLs from its assets in the Montney area of Alberta. The Company sells its production pursuant to fixed-price or variable-price physical delivery contracts. The transaction price for variable-price contracts is based on benchmark commodity price, adjusted for quality, location or other factors whereby each component of the pricing formula can be either fixed or variable, depending on the contract terms. Under the contracts, NuVista is required to deliver fixed or variable volumes of commodity to the contract counterparty.

Petroleum and natural gas revenue is recognized when NuVista gives up control of the unit of production at the delivery point agreed to under the terms of the contract. The amount of production revenue recognized is based on the agreed transaction price and the volumes delivered. Any variability in the transaction price relates specifically to NuVista's efforts to transfer production and therefore the resulting revenue is allocated to the production delivered in the period to which the variability relates. NuVista does not have any factors considered to be constraining in the recognition of revenue with variable pricing factors.

NuVista enters into contracts with customers with terms ranging from one month to seven years.

Under its contracts with customers, NuVista is required to deliver volumes of natural gas, condensate and NGLs to agreed upon locations where control over the delivered volumes is transferred to the customer. In instances where the third party marketer takes title of NuVista's product but uses NuVista's pipeline contract to deliver the product to the end customer, a portion of the natural gas revenue is recognized as natural gas price diversification revenue. Revenue is recognized when control of each unit of product is transferred to the customer with revenue due on the 25th day of the month following delivery.

NuVista's customers are primarily oil and natural gas marketers and partners in joint operations in the oil and natural gas industry. Concentration of credit risk is mitigated by marketing production to several oil and natural gas marketers under customary industry and payment terms. NuVista reviews the credit worthiness and obtains certain financial assurances from customers prior to entering sales contracts. The financial strength of the Company's customers is reviewed on a routine basis.

The following table summarizes petroleum and natural gas revenue by product:

	Three month	s e	ended June 30	Six months ended June			
	2022		2021	2022		2021	
\$	160,302	\$	56,456	\$ 279,550	\$	113,974	
	259,990		117,160	492,590		197,690	

	2022	2021	2022	2021
Natural gas revenue (1)	\$ 160,302	\$ 56,456	\$ 279,550	\$ 113,974
Condensate revenue	259,990	117,160	492,590	197,690
NGL revenue (2)	42,981	14,309	72,960	27,670
Total petroleum and natural gas revenue	\$ 463,273	\$ 187,925	\$ 845,100	\$ 339,334

<sup>(1)</sup> Natural gas revenue includes price risk management gains and losses on physical delivery sale contracts. For the three and six months ended June 30, 2022, our physical delivery sales contracts resulted in a losses of \$8.4 million and \$10.7 million (2021 – loss of \$0.2 million, gain of \$36.0 thousand). (2) Includes butane, propane, ethane and sulphur revenue.

A breakdown of natural gas revenue is as follows:

	Three months ended June 30						
	2022		2021		2022		2021
Natural gas revenue - AECO reference price (1)	\$ 128,627	\$	47,218	\$	222,518	\$	91,136
Heat/value adjustment (2)	12,841		4,801		23,601		8,557
Transportation revenue (3)	8,679		8,705		17,304		17,302
Natural gas market diversification gain	18,603		(4,077)		26,817		(3,057)
AECO physical delivery price risk management gains (losses) (4)	(8,448)		(191)		(10,690)		36
Total natural gas revenue	\$ 160,302	\$	56,456	\$	279,550	\$	113,974

<sup>(1)</sup> Quarter average AECO 7A monthly index.

Included in the accounts receivable at June 30, 2022 is \$144.7 million (December 31, 2021 - \$94.1 million) of accrued petroleum and natural gas revenue related to deliveries for periods prior to the reporting date. There were no significant adjustments for prior period accrued petroleum and natural gas revenue reflected in the Company's current period.

### 15. Capital management

The Company manages its capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. NuVista is able to change its capital structure by issuing new shares, new debt, or changing capital expenditures relative to adjusted funds flow.

The Company has a long term sustainable net debt target of less than 1.0 times adjusted funds flow in the stress test price environment of US\$ 45/Bbl WTI and US\$ 2.00/MMBtu NYMEX natural gas. The actual ratio may fluctuate on a quarterly basis above or below targeted levels due to a number of factors including facility outages, commodity prices, capital expenditures, and the timing of acquisitions and dispositions. At June 30, 2022, the Company's net debt was 0.4 times its annualized second quarter adjusted funds flow.

### Adjusted funds flow

NuVista considers adjusted funds flow to be a key measure that provides a more complete understanding of the Company's ability to generate cash flow necessary to finance capital expenditures, expenditures on asset retirement obligations, and meet its financial obligations. NuVista has calculated adjusted funds flow based on cash flow provided by operating activities, excluding changes in non-cash working capital and asset retirement expenditures, as management believes the timing of collection, payment, and occurrence is variable and by excluding them from the calculation, management is able to provide a more meaningful performance measure of NuVista's operations on a continuing basis. More specifically, expenditures on asset retirement obligations may vary from period to period depending on the Company's capital programs and the maturity of its operating areas, while environmental remediation recovery relates to an incident that

<sup>(2)</sup> Based on NuVista's historical adjustment of 10-12%.

<sup>(3)</sup> Cost of gas transportation from the transfer of custody sales point to the final sales point.

<sup>(4)</sup> Excludes price risk management realized and unrealized gains and losses on financial derivative commodity contracts but includes gains and losses on physical sale contracts.

management doesn't expect to occur on a regular basis. The settlement of asset retirement obligations is managed through NuVista's capital budgeting process which considers its available adjusted funds flow.

A reconciliation of adjusted funds flow is presented in the following table:

	2022	2021	2022	2021
Cash provided by operating activities	\$ 227,668	\$ 58,357	\$ 390,110	\$ 104,508
Asset retirement expenditures	1,184	265	6,752	4,098
Change in non-cash working capital	(29,019)	(3,170)	(7,160)	(19,897)
Adjusted funds flow (1)	\$ 199,833	\$ 55,452	\$ 389,702	\$ 88,709

<sup>(1)</sup> Adjusted funds flow as presented does not have any standardized meaning prescribed by IFRS and therefore it may not be comparable with the calculation of similar measures of other entities.

### Net debt and total capitalization

Net debt is used by management to provide a more complete understanding of the Company's capital structure and provides a key measure to assess the Company's liquidity. NuVista has calculated net debt based on cash and cash equivalents, accounts receivable and prepaid expenses, other receivable, accounts payable and accrued liabilities, long term debt (credit facility) and senior unsecured notes and other liabilities. Total market capitalization and net debt to annualized current guarter adjusted funds flow are used by management and the Company's investors in analyzing the Company's balance sheet strength and liquidity.

The following is a summary of total market capitalization, net debt, annualized current quarter adjusted funds flow and net debt to annualized current guarter adjusted funds flow:

	J	une 30, 2022	December 31, 2021
Basic common shares outstanding ('000s)		228,460	227,578
Share price <sup>(1)</sup>	\$	10.32	\$ 6.96
Total market capitalization	\$	2,357,707	\$ 1,583,943
Accounts receivable and prepaid expenses	\$	(176,868)	\$ (88,537)
Accounts payable and accrued liabilities		231,288	140,002
Long-term debt (credit facility)		56,882	196,055
Senior unsecured notes		224,056	223,178
Other liabilities		13,834	9,577
Net debt (2)	\$	349,192	\$ 480,275
Annualized current quarter adjusted funds flow	\$	799,332	\$ 606,660
Net debt to annualized current quarter adjusted funds flow		0.4	0.8

<sup>(1)</sup> Represents the closing share price on the Toronto Stock Exchange on the last trading day of the period.

The net debt to annualized current quarter adjusted funds flow ratio represents the time period in years it would take to pay off the net debt if no further capital expenditures were incurred and if adjusted funds flow remained consistent.

### 16. Share-based compensation

### Stock options

The Company has established a stock option plan whereby officers, directors and employees may be granted options to purchase common shares. Options granted vest at the rate of 1/3 per year and expire 2.5 years after the vesting date. The maximum number of stock options currently outstanding and available to be issued as at June 30, 2022 is 6,002,517.

<sup>(2)</sup> Net debt as presented does not have any standardized meaning prescribed by IFRS and therefore it may not be comparable with the calculation of similar measures of other entities. See "Non-GAAP and other financial measures" in the Management Discussion and Analysis ("MD&A").

The following continuity table summarizes the stock option activity:

luma 20 2022	December 31	2021
June 30. 2022	December 31	7071

	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
Balance, January 1	6,972,487	\$ 3.78	8,054,966	\$ 4.30
Granted	228,459	11.76	925,236	3.89
Exercised	(2,539,090)	5.21	(792,027)	4.17
Forfeited	_	_	(70,523)	4.13
Expired	(600)	3.92	(1,145,165)	7.26
Balance, end of period	4,661,256	\$ 3.39	6,972,487	\$ 3.78

The following table summarizes stock options outstanding and exercisable under the plan at June 30, 2022:

	0	ptions outstandir	ng	Options e	xercisable		
Range of exercise price	Number of options outstanding	Weighted average remaining contractual life	Weighted average exercise price	Number of options exercisable	Weighted average exercise price		
\$0.79 to \$1.99	1,656,622	2.9	\$ 0.83	544,124	\$ 0.82		
\$2.00 to \$3.99	1,675,086	2.6	2.83	955,338	3.06		
\$4.00 to \$5.99	533,830	1.5	4.47	523,798	4.46		
\$6.00 to \$7.99	278,210	3.5	7.29	31,454	7.37		
\$8.00 to \$9.99	289,049	1.0	9.02	289,049	9.02		
\$10.00 to \$11.99	228,459	4.4	11.76	_	_		
\$0.79 to \$11.99	4,661,256	2.6	\$ 3.39	2,343,763	\$ 3.65		

The Company uses the fair value based method for the determination of the share-based compensation costs. The fair value of each option granted during the year was estimated on the date of grant using the Black-Scholes option pricing model.

The weighted average fair value and weighted average assumptions used to fair value the options are as follows:

	June 30, 2022	December 31, 2021
Risk-free interest rate (%)	2.72	0.97
Expected volatility (%)	52	79
Expected life (years)	4.5	4.5
Forfeiture rate (%)	9	10
Fair value at grant date (\$ per option)	5.34	2.35

Note to March 31, 2022 - no options were granted, there are no fair value assumptions for the quarter.

## Share award incentive plan

The Company has a Share Award Incentive Plan ("the Plan") for employees and officers consisting of Restricted Share Awards ("RSA") and Performance Share Awards ("PSA"). The maximum number of common shares reserved for issuance under the Plan is 14,350,000 of which 4,361,735 remain to be issued.

#### Restricted share awards

The Company has a RSA plan for employees and officers which entitle the employee to receive one common share for each RSA granted upon vesting. RSA grants vest within three years from the date of grant. Life to date, all RSA grants have had a two year vesting period.

The fair value of RSAs is determined based on the weighted average trading price of the five days preceding the grant date. This fair value is recognized as share-based compensation expense over the vesting period with a corresponding increase to contributed surplus. The amount of the compensation expense is reduced by an estimated forfeiture rate determined at the date of the grant and updated each period. Upon vesting of the RSAs and settlement in common shares, the previously recognized value in contributed surplus will be recorded as an increase to share capital.

The following table summarizes the change in the number of RSAs:

	June 30, 2022	December 31, 2021
Balance, January 1	2,308,555	2,407,697
Settled - issuance of shares from treasury	(562,074)	(686,089)
Settled - cash payment (1)	_	(10,961)
Granted	115,264	631,911
Forfeited	_	(34,003)
Balance, end of period	1,861,745	2,308,555

<sup>(1)</sup> Awards under share based plans elected by the Company to be settled with cash and not the issuance of shares from treasury.

### Performance share awards

The Company has a PSA plan for employees and officers. Each PSA entitles the holder to be issued the number of common shares designated in the performance award, multiplied by a payout multiplier ranging from 0 to 2.0x. The payout multiplier for performance-based awards will be determined by our Board based on an assessment of the Company's achievement of predefined corporate performance measures in respect of the applicable period. PSA grants vest three years from the date of grant.

The fair value of PSAs is determined based on the weighted average trading price of the five days preceding the grant date. This fair value is recognized as share-based compensation expense over the vesting period with a corresponding increase to contributed surplus. The amount of the compensation expense is reduced by an estimated forfeiture rate determined at the date of the grant and updated each period. Upon vesting of the PSAs and settlement in common shares, the previously recognized value in contributed surplus will be recorded as an increase to share capital.

The following table summarizes the change in the number of PSAs:

	June 30, 2022	December 31, 2021
Balance, January 1	4,644,674	3,948,785
Settled - issuance of shares from treasury	(337,116)	(263,353)
Settled - cash payment (1)	_	(13,702)
Granted	192,993	1,043,455
Forfeited	_	(48,246)
Performance adjustment	165,263	(22,265)
Balance, end of period	4,665,814	4,644,674

<sup>(1)</sup> Awards under share based plans elected by the Company to be settled with cash and not the issuance of shares from treasury.

An adjustment to a performance factor from 1.0 to 1.23 was recognized in the first quarter of 2022 for PSAs granted in 2019.

### Cash award incentive plan

### Director deferred share units

The Company has a director deferred share unit ("DSU") incentive plan. Each DSU entitles participants to receive cash equal to the trading price of the equivalent number of shares of the Company. All DSUs granted vest and become payable upon retirement of the director.

The compensation expense was calculated using the fair value method based on the trading price of the Company's shares at the end of each reporting period. The following table summarizes the change in the number of DSUs:

	June 30, 2022	December 31, 2021
Balance, January 1	1,147,930	1,002,594
Granted	38,950	145,336
Balance, end of period	1,186,880	1,147,930

The following table summarizes the change in compensation liability relating to DSUs:

	June 30, 2022	December 31, 2021
Balance, January 1	\$ 7,990	\$ 943
Change in accrued compensation liabilities	4,259	7,047
Balance, end of period	\$ 12,249	\$ 7,990

The compensation liability was calculated using share prices at December 31, 2021 and June 30, 2022 of \$6.96 and \$10.32 respectively.

### Performance share units

In the fourth quarter of 2020, the Company granted units under a new performance share unit ("PSU") incentive plan. Each PSU entitles participants to receive cash equal to the trading price of the equivalent number of shares of the Company at the time of grant, multiplied by a payout multiplier ranging from 0 to 2.0x. The payout multiplier for performance-based awards will be determined by our Board based on an assessment of the Company's achievement of predefined corporate performance measures in respect of the applicable period, using the same performance assessment metrics as are used in the PSA plan.

The compensation expense was calculated using the fair value method based on the trading price of the Company's shares at the end of the reporting period.

The following table summarizes the change in the number of PSUs:

	June 30, 2022	December 31, 2021
Balance, January 1	944,645	975,436
Settled	_	(10,353)
Forfeited	(1,225)	(20,438)
Balance, end of period	943,420	944,645

The following table summarizes the change in compensation liability relating to PSUs:

	June 30, 2022	December 31,	2021
Balance, January 1	\$ 1,587	\$	917
Change in accrued compensation liabilities	(2)		687
Cash settled	_		(17)
Balance, end of period	\$ 1,585	\$ 1	,587

The following table summarizes share-based compensation expense relating to stock options, RSAs, PSAs, DSUs and PSUs:

	Three months	s ended June 30	Six months ended June 30			
	2022	2021	2022	2021		
Stock options	\$ 401	\$ 423	\$ 787	\$ 837		
Restricted share awards	446	360	843	715		
Performance share awards	670	363	1,603	812		
Non cash share-based compensation expense	1,517	1,146	3,233	2,364		
Director deferred share units	115	2,039	4,259	3,473		
Performance share units	_	(5)	(2)	690		
Restricted share awards (1)	_	_	_	26		
Performance share awards (1)	_	_	_	33		
Cash share-based compensation expense	115	2,034	4,257	4,222		
Total share-based compensation expense	\$ 1.632	\$ 3.180	\$ 7.490	\$ 6.586		

<sup>(1)</sup> Awards under share based plans elected by the Company to be settled with cash and not the issuance of shares from treasury.

There were no cash settled awards for the six months ended June 30, 2022. In the prior year comparative period there were \$17.0 thousand cash settled PSUs, \$26.0 thousand cash settled RSAs, \$33.0 thousand PSAs, and no cash settled DSUs.

	Thre	e months	ded June 30	Six months ended June 30			
		2022		2021	2022		2021
Capitalized stock options	\$	73	\$	72	\$ 142	\$	135
Capitalized restricted share awards		78		59	147		110
Capitalized performance share awards		119		68	281		132
Capitalized share based compensation	\$	270	\$	199	\$ 570	\$	377

Capitalized share-based compensation is attributable to personnel involved with the development of the Company's capital projects.

### 17. Risk management activities

### (a) Financial instruments

The Company's financial instruments recognized on the statement of financial position consists of cash and cash equivalents, accounts receivable and prepaid expenses, financial derivative contracts, accounts payable and accrued liabilities, accrued environmental remediation liabilities, compensation liabilities, longterm debt and senior unsecured notes. The carrying value of the long-term debt approximates its fair value as it bears interest at market rates. Except for the financial derivative contracts and compensation liabilities, which are recorded at fair value, carrying values reflect the current fair value of the Company's financial instruments due to their short-term maturities. The estimated fair values of recognized financial instruments have been determined based on quoted market prices when available, or third-party models and valuation methodologies that use observable market data.

The Company classifies fair value measurements according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on

inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The Company's cash and cash equivalents are classified as Level 1 and financial derivative contracts as Level 2. The Company uses third party models and valuation methodologies to determine the fair value of financial derivative contracts. Assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy level.

### (b) Financial assets and financial liabilities subject to offsetting

The following is a summary of the Company's financial assets and financial liabilities that are subject to offsetting:

	June 30, 2022						December 31, 2021			
		Financial assets		Financial liabilities	Net Financial liabilities		Financial assets	Financial liabilities	Net Financial liabilities	
Current assets (liabilities)	\$	2,468	\$	(45,571) \$	(43,103)	\$	— \$	(40,317) \$	(40,317)	
Long-term assets (liabilities)		9,434		_	9,434		_	(16,938)	(16,938)	
Net position	\$	11,902	\$	(45,571) \$	(33,669)	\$	— \$	(57,255) \$	(57,255)	

### (c) Risk management contracts

The following is a reconciliation of movement in the fair value of financial derivative contracts:

	June 30, 2022	December 31, 2021
Fair value of contracts, beginning of year	\$ (57,255) \$	(64,938)
Change in the fair value of contracts in the period	(97,182)	(107,933)
Fair value of contracts realized in the period	120,768	115,616
Fair value of contracts, end of period	\$ (33,669) \$	(57,255)
Financial derivative assets (liabilities) – current	\$ (43,103) \$	(40,317)
Financial derivative assets (liabilities) – long term	\$ 9,434 \$	(16,938)

The following is a summary of the financial derivatives as at June 30, 2022:

## (b) Physical delivery sales contracts

The Company enters into physical delivery sales contracts to manage commodity price risk. These contracts are not considered to be derivatives and therefore not recorded at fair value. They are considered sales contracts and are recorded at cost at the time of transaction.

The following is a summary of the physical delivery sales contracts in place as at June 30, 2022:

	AECO fixed	orice swap	Dawn-NYI	MEX Basis	
	GJ/d	Cdn\$/GJ	MMBtu/d	US\$/MMBtu	
Q3 2022	30,000	2.89	10,000	(0.26)	
Q4 2022	13,424	3.36	3,370	(0.26)	
Q1 2023	5,000	4.82	_	_

### 18. Financing costs

	Three months ended June 30				Six months ended June 3			ded June 30
		2022		2021		2022		2021
Interest on long-term debt (credit facility)	\$	1,811	\$	4,051	\$	5,060	\$	9,257
Interest on senior unsecured notes		4,816		3,772		9,860		7,537
Interest expense		6,627		7,823		14,920		16,794
Lease interest expense		3,208		3,332		6,447		6,676
Accretion expense		840		486		1,560		1,175
Total financing costs	\$	10,675	\$	11,641	\$	22,927	\$	24,645

## 19. Supplemental cash flow information

The following table provides a detailed breakdown of certain line items contained within cash from operating and investing activities:

	Three months ended June 30				Six months ended June 3			
		2022		2021		2022		2021
Cash provided by (used for):								
Accounts receivable and prepaid expenses	\$	(38,930)	\$	2,789	\$	(88,329)	\$	(15,680)
Other assets		_		327		_		787
Accounts payable and accrued liabilities		75,440		(222)		96,422		36,945
Total	\$	36,510	\$	2,894	\$	8,093	\$	22,052
Related to:								
Operating activities	\$	29,019	\$	3,170	\$	7,160	\$	19,897
Investing activities		7,491		(276)		933		2,155
	\$	36,510	\$	2,894	\$	8,093	\$	22,052

### 20. Commitments

The following is a summary of the Company's commitments as at June 30, 2022:

	Total	2022	2023	2024	2025	2026	Thereafter
Transportation (1)	\$ 904,836 \$	58,372 \$	123,383 \$	112,728 \$	113,428 \$	110,307	386,618
Processing (1)	1,139,657	38,449	83,957	93,254	85,791	80,687	757,519
Office lease (2)	3,764	480	999	857	151	151	1,126
Total commitments (3)	\$ 2,048,257 \$	97,301 \$	208,339 \$	206,839 \$	199,370 \$	191,145	1,145,263

<sup>(1)</sup> Certain of the transportation and processing commitments are secured by outstanding letters of credit totaling \$28.8 million at June 30, 2022 (December 31, 2021 - \$24.2 million).

(2) Represents the undiscounted future commitments of variable operating expenses related to the Company's office leases.

 $<sup>^{\</sup>rm (3)}$  Excludes commitments recognized within lease liabilities.
