Information Circular - Proxy Statement for the Annual Meeting to be held on Thursday, May 12, 2011

#### **PROXIES**

## **Solicitation Of Proxies**

This information circular - proxy statement is furnished in connection with the solicitation of proxies for use at the annual meeting of the shareholders of NuVista Energy Ltd. to be held on Thursday, May 12, 2011, in the McMurray Room of the Calgary Petroleum Club,  $319 - 5^{th}$  Avenue S.W., Calgary, Alberta, T2P 0L5 at 3:00 p.m. (Calgary time) and at any adjournment thereof.

Forms of proxy must be addressed to and reach our Corporate Secretary, c/o Valiant Trust Company, Attention: Proxy Department, Suite 600, 750 Cambie Street, Vancouver, British Columbia V6B 0A2 (fax to (604) 681-3067), not less than 48 hours before the time for holding the meeting or any adjournment thereof. Shareholders may also vote via the internet at *www.valianttrust.com*. Votes by internet must be received at least 48 hours before the meeting or any adjournment thereof. Only shareholders of record at the close of business on April 4, 2011, will be entitled to vote at the meeting, unless that shareholder has transferred any shares subsequent to that date and the transferee shareholder, not later than 10 days before the meeting, establishes ownership of the shares and demands that the transferee's name be included on the list of shareholders entitled to vote at the meeting.

The instrument appointing a proxy must be in writing and must be executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation.

The persons named in the enclosed form of proxy are our officers. **As a shareholder you have the right to appoint a person or company, who need not be a shareholder, to represent you at the meeting.** To exercise this right you should insert the name of the desired representative in the blank space provided on the form of proxy and strike out the other names or submit another appropriate proxy.

#### **Advice To Beneficial Holders Of Common Shares**

The information set forth in this section is of significant importance to you if you do not hold your common shares in your own name. Only proxies deposited by shareholders whose names appear on our records as the registered holders of common shares can be recognized and acted upon at the meeting. If common shares are listed in your account statement provided by your broker, then in almost all cases those common shares will not be registered in your name on our records. Such common shares will likely be registered under the name of your broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS & Co., the registration name for CDS Clearing and Depository Services Inc., which acts as nominees for many Canadian brokerage firms. Common shares held by your broker or their nominee can only be voted upon your instructions. Without specific instructions, your broker or their nominee is prohibited from voting your shares.

Applicable regulatory policy requires your broker to seek voting instructions from you in advance of the meeting. Every broker has its own mailing procedures and provides its own return instructions, which you should carefully follow in order to ensure that your shares are voted at the meeting. Often, the form of proxy supplied by your broker is identical to the form of proxy provided to registered shareholders. However, its purpose is limited to instructing the registered shareholder how to vote on your behalf. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions Inc. Broadridge mails a scannable voting instruction form in lieu of the form of proxy. You are asked to complete and return the voting instruction form to them by mail or facsimile. Alternately, you can call their toll-free telephone number or visit their website to vote your shares. They then tabulate the results of all instructions received and provide appropriate instructions respecting the voting of shares to be represented at the meeting. If you receive a voting instruction form from

Broadridge it cannot be used as a proxy to vote shares directly at the meeting as the proxy must be returned to Broadridge well in advance of the meeting in order to have the shares voted.

## **Revocability Of Proxy**

You may revoke your proxy at any time prior to a vote. If you or the person you give your proxy attends personally at the meeting, you or such person may revoke the proxy and vote in person. In addition to revocation in any other manner permitted by law, a proxy may be revoked by an instrument in writing executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation. To be effective the instrument in writing must be deposited either at our head office at any time up to and including the last business day before the day of the meeting, or any adjournment thereof, at which the proxy is to be used, or with the chairman of the meeting on the day of the meeting, or any adjournment thereof.

#### **Persons Making The Solicitation**

This solicitation is made on behalf of our management. We will bear the costs incurred in the preparation and mailing of the form of proxy, notice of annual meeting and this information circular - proxy statement. In addition to mailing forms of proxy, proxies may be solicited by personal interviews, or by other means of communication, by our directors, officers and employees who will not be remunerated therefor.

## **Exercise Of Discretion By Proxy**

The common shares represented by proxy in favour of management nominees will be voted or withheld from voting on any matter at the meeting. Where you specify a choice with respect to any matter to be acted upon, the shares will be voted on any matter in accordance with the specification so made. If you do not provide instructions, your shares will be voted in favour of the matters to be acted upon as set out herein. The persons appointed under the form of proxy, which we have furnished, are conferred with discretionary authority with respect to amendments or variations of those matters specified in the form of proxy and notice of annual meeting and with respect to any other matters which may properly be brought before the meeting or any adjournment thereof. At the time of printing this information circular - proxy statement, we know of no such amendment, variation or other matter.

## Additional Disclosure Relating to Proposed Directors

Except as otherwise disclosed herein, none of our directors (nor any personal holding company of any of such persons) is, as of the date hereof, or was within ten years before the date hereof, a director, chief executive officer or chief financial officer of any company (including us), that was subject to a cease trade order (including a management cease trade order), an order similar to a cease trade order or an order that denied the relevant company access to any exemption under securities legislation, in each case that was in effect for a period of more than 30 consecutive days (collectively, an "Order") that was issued while the director was acting in the capacity as director, chief executive officer or chief financial officer; or was subject to an Order that was issued after the director ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

Except as otherwise disclosed herein, none of our directors (nor any personal holding company of any of such persons) is, as of the date hereof, or has been within the ten years before the date hereof, a director or executive officer of any company (including us) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets, other than Mr. Zawalsky who was formerly a director of Efficient Energy Resources Ltd. (a private electrical generation company) which agreed to the voluntary appointment of a receiver in 2005 and Mr. MacPhail who was formerly a director of The Resort at Copper Point Ltd. (a private real estate development company) which was placed in receivership in 2009. In addition, none of our directors (nor any personal holding company) or any such person has, within the ten years before the date hereof, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the director.

None of our directors (nor any personal holding company of any of such persons) has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor in making an investment decision.

#### **Majority Voting for Directors**

Our board has adopted a policy stipulating that if the votes in favour of the election of a director nominee at a shareholders' meeting represent less than a majority of our common shares voted and withheld, the nominee will submit his resignation promptly after the meeting, for the Governance and Nominating Committee's consideration. The Governance and Nominating Committee will make a recommendation to the board after reviewing the matter, and the board's decision to accept or reject the resignation offer will be disclosed to the public within 90 days of the applicable shareholders' meeting. Resignations are expected to be accepted except in situations where extenuating circumstances would warrant the applicable director to continue to serve as a board member. The nominee will not participate in any committee or board deliberations on the resignation offer. The policy does not apply in circumstances involving contested director elections.

## **Appointment Of Auditors**

Management is soliciting proxies, in the accompanying form of proxy, in favour of the appointment of the firm of KPMG LLP, Chartered Accountants, as our auditors, to hold office until the next annual meeting of our shareholders and to authorize the directors to fix their remuneration as such. See "Audit Committee Information" in our annual information form for the year ended December 31, 2010, for additional information including a description of fees we paid to KPMG LLP during the past two years.

# **DIRECTORS' COMPENSATION**

#### **Director Compensation**

Our board, through the Governance and Nominating Committee, is responsible for the development and implementation of a compensation plan for our directors who are not also officers. We do not pay any compensation to officers for acting as a director.

The main objectives of our compensation plan for directors are to attract and retain the services of the most qualified individuals and to compensate the directors in a manner that is commensurate with the risks and responsibilities assumed in board and committee membership and at a level that is similar to the compensation paid to directors of a peer group of oil and gas companies. In addition, our philosophy of using compensation to foster a culture of ownership also extends to our director compensation policies. Our board believes it is important that directors demonstrate their commitment to our stewardship through common share ownership. We have established an equity ownership policy that non-executive directors must have an equity ownership interest in our common shares within six months of joining our board of at least three times their annual board retainer. Following the phase-in period, directors are expected to be in continuous compliance with these guidelines. In the event that an individual who has achieved the target ownership level subsequently falls below such target ownership level due solely to a decline in the market price of our common shares, such individual will be considered to be in compliance with the ownership guidelines as long as the adjusted cost base of his or her common shares exceeds the target ownership level.

We currently pay our outside directors annual retainers and meeting fees for their roles on our board and board committees and outside directors are also reimbursed for their out-of-pocket expenses incurred in carrying out their duties as directors. Mr. MacPhail and Mr. Poelzer have requested that they not receive any retainer or meeting fees.

The following table summarizes the annual retainer and meetings fees paid for the year ended December 31, 2010:

Compensation Element	Amount
	(2)

In addition, the value of stock options granted to any one non-management director during a calendar year, as calculated on the date of grant, may not exceed \$100,000. We do not make annual stock option grants to our directors. No new options were granted to directors in 2010. As at December 31, 2010, our outside directors held an aggregate of 96,000 options, which represented less than 0.1% of our issued and outstanding common shares as at such date. # **EXECUTIVE COMPENSATION**

For the year ended December 31, 2010 our named executive officers or NEOs, were Mr. Froese, our interim President and Chief Executive Officer, Vice President, Finance, Chief Financial Officer and Corporate Secretary, Mr. Christie, our Vice President, Exploration, Mr. McKinnon, our Vice President, Engineering, Mr. McDavid, our Vice President, Operations and Mr. Verge, our former President and Chief Executive Officer.

## **Compensation Discussion and Analysis**

We have developed an executive compensation strategy built on offering a competitive compensation package, which is oriented toward developing a culture of ownership by providing long-term equity-based incentives. As a result, the awarding of stock options is a significant component of our executive compensation. This approach is based on the assumption that our common share price performance over the long-term is an important indicator of long-term performance.

Our compensation philosophy is based on the following fundamental principles:

 Our compensation programs must be aligned with shareholder interests by aligning the goals of executives with maximizing long-term shareholder value.

- Our compensation to NEOs must be performance sensitive by linking compensation to our operating and market performance.
- Our compensation programs must be market competitive in terms of value and structure in order to retain
  existing employees who are performing according to their objectives and to attract new individuals of the
  highest calibre.

#### Compensation Decision-Making Process

The purpose of our Compensation Committee is to assist our board in fulfilling its responsibilities by monitoring our compensation plans and practices and ensuring their congruence with our objectives and goals by assessing and making recommendations regarding compensation, benefits, short and long-term incentive programs and employee retention. Our Compensation Committee is currently composed of three non-management directors, Mr. Karkkainen (Chair), Mr. Comber and Mr. Zawalsky. All members of the Compensation Committee are independent directors.

Our Chief Executive Officer presents recommendations to the Compensation Committee regarding salary adjustments, bonuses and long-term incentives for all staff. The focus of the discussion is on the individual executive salaries and bonuses with a review of the aggregate level of salary and bonuses for the balance of the staff. The Compensation Committee makes specific recommendations to our board on our Chief Executive Officer's salary, bonus payments and long-term incentive awards. The Compensation Committee also approves the salaries, bonus payments and long-term incentive awards of all other officers. Typically, recommendations regarding officer salaries are presented to the Compensation Committee in December and recommendations regarding bonuses are presented to the Compensation Committee in February. Recommendations regarding officer long-term incentive awards are typically made at the same time as awards to all of our employees.

Our board reviews all recommendations of the Compensation Committee before final approval. Any director who is also an officer is excused from the directors' meeting during any discussion of their compensation.

# Analysis of Compensation Practices of Competitors

Aggregate compensation for each NEO is designed to be competitive. In order to assess the market competitiveness of our executive compensation programs and assist the Compensation Committee in its evaluation of compensation, we participate in the annual Mercer Total Compensation Survey for the Petroleum Industry and reviewed compensation data from peer companies. In 2010, we considered data from Mercer for 25 companies with production rates of between 10,000 and 100,000 barrels of oil equivalent per day.

The purpose of reviewing the Mercer and peer company data was to:

- Understand the competitiveness of current pay and bonus levels for each executive position relative to companies of similar size.
- Identify and understand any gaps that may exist between actual compensation levels and market compensation levels.
- Establish as a basis for developing salary adjustments and short and long-term incentive awards.

# Components of Compensation Plan

Our executive compensation program provides a balanced set of components designed to deliver the objectives of our compensation philosophy. The salary component provides a base of secure compensation necessary to attract and retain executive talent but is lower than the median of the Mercer data for executives. The variable components, bonus and long-term incentives are designed to balance short-term performance with our long-term interests and motivate the superior performance of both. The long-term incentive plan also aligns NEOs with shareholders and helps retain executive talent. Our employee stock savings plan further aligns NEOs with shareholders and allows NEOs to accumulate savings for retirement or other purposes. The combination of the fixed components and the

variable incentive opportunities delivers a competitive compensation package although the base salary component is lower than many of our competitors.

In determining salary increases, annual bonuses and other compensation, the Compensation Committee considers overall corporate performance, performance across a number of operating measures to evaluate the execution of our business strategy and other subjective elements such as the strengthening of staff resources, processes and internal communication and individual performance.

- Based on the grant date fair value of the applicable options on the date of grant. The fair value of each option granted is determined on the date of grant using the Black-Scholes option pricing model. In the pricing model, the average risk free interest rate was 2.3% during 2010; volatility of 40% during 2010; an average expected life of 4.4 years; an estimated forfeiture rate of 10%; and dividends of \$0.20 per share. These amounts are not necessarily reflective of actual amounts that may be realized on exercise. See "Outstanding Share-Based Awards and Option-based Awards" which reflect the value at December 31, 2010.

- (4) This represents the total of salary, annual incentive plans and all other compensation.
- (5) Mr. Christie commenced employment on June 9, 2008.
- Mr. Verge resigned on November 23, 2010 at the request of the board. In addition to his salary paid to November 23, 2010, Mr. Verge received payment for earned but unpaid vacation as well as a retiring allowance and restricted stock units pursuant to his executive employment agreement.

## **Base Salary**

In setting base salaries, our Compensation Committee reviews executive compensation of comparable organizations in the oil and gas industry. Salaries of senior executive officers reflect market conditions and levels of responsibility and are determined utilizing salary survey information from comparable companies.

Typically, salary increases are determined for all employees, including executives in December of each year. The determination of 2010 executive salary increases was made in December, 2009 and implemented effective January 1, 2010. In 2010, NEOs received increases effective January 1, 2010 of between 5.7% and 12.2%. Notwithstanding these increases, our executive salaries remain below the Mercer median data for comparable positions. This is consistent with our compensation philosophy to weight total compensation in favour of variable, long-term performance based components.

The following table summarizes annual base salaries for our NEOs at December 31, 2010 and December 31, 2009:

Name and principal position	2010 Base Salary (\$)	2009 Base Salary (\$)	Increase
Robert F. Froese Interim President and Chief Executive Officer, Vice President, Finance, Chief Financial Officer and Corporate Secretary	265,000	245,000	8.2%
Kevin J. Christie Vice President, Exploration	232,500	220,000	5.7%
D. Chris McDavid Vice President, Operations	222,500	205,000	8.5%
Dan B. McKinnon Vice President, Engineering	220,000	205,000	7.3%
Alex G. Verge (1) Former President and Chief Executive Officer	275,000	245,000	12.2%

## Note:

(1) Mr. Verge resigned on November 23, 2010 at the request of the board.

#### Bonuses

Our Compensation Committee approves an annual bonus amount for all employees and specific bonus amounts for officers (including NEOs). The total amount of the annual bonus pool is approved by our board and is based on our performance with respect to bonus performance metrics, current market conditions and other factors considered relevant by our board. Based on these factors the board approved an overall 2010 company bonus of 18.7% of 2010 annual salaries paid or \$2.6 million.

The 2010 target bonus levels for executives, including NEOs, were 40% of annual salary. Actual bonuses paid as a percentage of 2010 salary reflect the year's corporate performance and individual and team specific contribution and performance.

The following table summarizes bonuses paid to our NEOs for the years ended December 31, 2010 and December 31, 2009:

Name and principal position	2010 Bonus (\$)	2009 Bonus (\$)	2010 Bonus as a % of 2010 Base Salary
Robert F. Froese Interim President and Chief Executive Officer, Vice President, Finance, Chief Financial Officer and Corporate Secretary	85,000	100,000	32.1%
Kevin J. Christie Vice President, Exploration	68,500	77,500	29.5%
D. Chris McDavid Vice President, Operations	68,000	87,500	30.6%
Dan B. McKinnon Vice President, Engineering	66,500	85,000	30.2%
Alex G. Verge Former President and Chief Executive Officer (1)	-	95,000	-

#### Note:

(1) Mr. Verge did not receive a bonus for the year ended December. 31, 2010. However, an amount in lieu of bonus was included in Mr. Verge's severance payment pursuant to his executive employment agreement.

## **Long-term Incentive Plans**

Our long-term incentive plans consist of our stock option plan, our restricted stock unit plan ("RSU Plan") and our employee stock savings plan. Our long-term incentive plans are designed to align the interests of our employees with shareholders by linking a component of compensation to the long-term performance of our common shares. Prior to 2008, our long-term incentive plans consisted only of our stock option and employee stock savings plans. In 2008, based on the review of our compensation programs by management and our compensation consultant, it was determined that we should add restricted stock units ("RSUs") to our compensation mix. This decision was based on a general compensation trend to include full—value incentives such as RSUs as replacement for a portion of gain-based incentives such as stock option awards. In addition, RSUs can provide an employee retention component that can be effective even in a declining share price environment.

# Stock Option Plan

Our stock option plan is designed to motivate all employees to focus on our long-term growth and success. It also provides an effective retention tool. Total option awards are presently limited to 10% of our outstanding common shares less the number of issued and outstanding performance shares, if any. Any increase in our issued and outstanding common shares will result in an increase in the available number of common shares issuable under the plan and any exercises of options will make new awards available under the plan.

The number of common shares issuable pursuant to the plan to any one person shall not exceed 5% of the outstanding common shares. The number of common shares reserved for issuance at any time or issued within one year, pursuant to the plan and all of our other established or proposed share compensation arrangements to insiders shall not exceed 10% of our outstanding common shares and the number of common shares issuable within one year, pursuant to the plan and all of our other established or proposed share compensation arrangements to any one insider and such insider's associates shall not exceed 5% of our outstanding common shares. The number of common shares issuable pursuant to the plan to non-management directors is limited to a maximum of 0.25% of our outstanding common shares. In addition, the value of stock options granted to any one non-management director during a calendar year, as calculated at the date of grant, may not exceed \$100,000.

All options awarded pursuant to the plan will expire on a date as determined at the time of the grant provided that no stock option may be exercised beyond six years from the time of the grant.

Options are issued with an exercise price equal to the volume weighted average trading price of our common shares for the five trading days prior to the date of grant. Any stock options which have not been exercised by the expiry date shall expire and become null and void. If the expiry date of any option falls within any blackout period imposed by our board or within ten business days following the end of any blackout period, then the expiry date of such options shall be extended to the date that is ten business days following the end of such blackout period. Unless approved by our board, no stock options may be exercised by an optionee during a blackout period. Our plan does not provide for any financial assistance to be provided by us to facilitate the exercise of an option.

If an optionee ceases to be a director, officer or employee of us or ceases to be providing services to us on an ongoing basis for any reason whatsoever, including without limitation resignation, dismissal or otherwise but excluding the optionee's death, the optionee may, prior to the expiry date and within 30 days from the date of ceasing to be a director, officer or a employee or ceasing to provide services to us on an ongoing basis, exercise the stock options which are vested within such period, after which time the stock option shall terminate. If an optionee dies prior to the expiry date, the optionee's legal representative may, within six months from the optionee's death and prior to the expiry date, exercise the stock options which are vested within such period, after which time any remaining stock options shall terminate. If there is a "change of control" as defined in the stock option agreement all outstanding stock options vest prior to the date of the change of control. All options granted pursuant to the plan are not assignable.

Optionees have the right (the "**Put Right**") to request that we purchase each of their vested options for a price equal to the difference, if positive, between the market price of our common shares on the day prior to date of notice of exercise of the Put Right and the exercise price of the option. We have the discretion to not accept any exercise of the Put Right. In addition, each optionee that exercises the Put Right may purchase common shares from treasury with the proceeds of the exercise of the Put Right at the market price of our common shares. In certain circumstances as set forth in the plan, an optionee that exercises the Put Right may purchase common shares from us, which may, at our election, be issued on a flow-through basis under the *Income Tax Act* (Canada). The maximum number of common shares available under the Put Right is currently set at 700,000 common shares.

Our board can amend or discontinue the plan or options granted thereunder at any time without shareholder approval; provided any amendment to the plan that requires approval of any stock exchange on which our common shares are listed for trading may not be made without approval of such stock exchange. However, without the prior approval of the shareholders, as may be required by such exchange, we may not: (a) make any amendment to the plan to increase the percentage of common shares issuable on exercise of outstanding options at any time; (b) reduce the exercise price of any outstanding stock options or in respect of the cancellation or re-issuance of any stock options; (c) extend the term of any outstanding stock option beyond the original expiry date of such stock option unless such extension is due to a blackout period being in effect; (d) make any amendment to increase the maximum limit on the number of securities that may be issued to insiders; (e) amend the limits on grants of stock options to non management directors; (f) change participants eligible to receive stock options under the plan to permit the introduction or re-introduction of non-employee directors on a discretionary basis; (g) permit an optionee to transfer or assign stock options to a new beneficial holder, other than for estate settlement purposes; or (h) make any amendment to the amendment clause. In addition, no amendment to the plan or stock options granted pursuant to the plan may be made without the consent of the optionee, if it adversely alters or impairs any stock option previously granted to such optionee under the plan.

In December 2009, based on a review of our stock option plan, our policy regarding the vesting terms and expiry dates for all new stock options awards were changed. For all future stock option awards, one-third of the total award will vest on each of the first three anniversary dates and options will expire 2.5 years following the vesting date. For stock option awards prior to this date, vesting was one-quarter of the total award on each of the first four anniversary dates with an expiry date two years following the vesting date. In addition, our form of option agreement was amended to ensure that the change of control provisions in our long-term incentive plans were consistent.

All of our employees participate in the stock option plan. Subject to regulatory requirements, the terms and conditions of options granted under the stock option plan are determined by our board based on recommendations from the Compensation Committee. Stock option awards are approved for each officer with the award value based on percentage of salary adjusted for individual performance and other factors.

Our historical practise has been to grant stock options on an annual basis, except in the case of new hires. In the fall of 2009, we decided to split the annual long-term incentive grants into semi-annual awards (May and November) to address the volatility in our share price. All employees, including NEOs, received stock option grants in May and November 2010.

A copy of our stock option plan has been filed and is available on the SEDAR at www.sedar.com.

## Restricted Stock Unit Incentive Plan

Our RSU Plan is designed to motivate all employees to focus on our long-term growth and success. The plan also provides employees with a compensation component that is linked to share performance but has less leverage to our share price than stock options. We believe that RSUs enhance our ability to attract and retain employees and complements the other components in our compensation program. The mix of RSUs and stock options received by an employee is based on their level in the organization and their role. Generally the long-term incentive awards for more senior employees are weighted towards stock options and awards for other employees are weighted towards RSUs.

All of our employees participate in the RSU Plan. Our outside directors are not eligible to participate in the RSU Plan. The terms and conditions of RSUs awarded under the RSU Plan are determined by our board based on recommendations from the Compensation Committee. RSU awards are approved for each executive with the award value based on percentage of salary, adjusted for individual performance and other factors. All employees, including NEOs, received RSU awards in May and November, 2010.

Each RSU entitles an employee to a cash payment equal to the fair market value of our underlying common shares on the date that the RSU matures. For this purpose, fair market value means the volume weighted average of the prices at which our common shares traded on the Toronto Stock Exchange for the five (5) trading days prior to the maturity date. Unless otherwise determined by our Compensation Committee, each RSU granted pursuant to the RSU Plan has a fixed term of not more than 36 months less a day. All RSUs expire at the end of the term.

Unless otherwise provided in the grant agreement or the participant's employment contract: (i) if a holder ceases to be an employee "for cause", all RSUs shall be forfeited; (ii) if a holder voluntarily ceases to be an employee, all unpaid and matured RSUs shall be paid in full and all unmatured RSUs shall be forfeited; and (iii) if a holder ceases to be an employee as a result of the death or retirement or involuntary termination without cause, all unpaid and matured RSUs shall be payable in full and the holder shall be entitled to a proportionate share of unmatured RSUs. If there is a "change of control" as defined in the RSU Plan, all outstanding RSUs are payable in full prior to the date of the change of control. All RSUs granted pursuant to the plan are not assignable.

Our board may amend or discontinue the RSU Plan or RSUs granted under the RSU Plan at any time without shareholder approval; provided any amendment to the RSU Plan that requires approval of any stock exchange may not be made without approval of such stock exchange. In addition, no amendment to the RSU Plan or RSUs granted pursuant to the RSU Plan may be made without the consent of the participant, if it adversely alters or impairs any RSUs previously granted to such participant.

At December 31, 2010, there were 452,931 RSUs outstanding.

## Employee Stock Savings Plan

We have an employee savings plan whereby all employees, including executive officers, are encouraged to contribute up to a maximum of 6% of their salary to the employee stock savings plan. Employees can choose to direct this money into a registered or non-registered savings plan. For each dollar contributed by the employee to the plan, we contribute 1.5 dollars. The funds are used to purchase our common shares in the open market. Both the employee and the employer contributions are subject to a one-year restriction on removal from the plan. Since the plan is available to all employees, it has been successful in encouraging employees to become shareholders of us and promoting the principle of alignment with shareholder interests. The Compensation Committee considers this program to be competitive. There is no other form of retirement or savings program. All NEOs participated in the

program in 2010. These amounts are included in the "All Other Compensation" on the Summary Compensation Table above.

## Note:

## (1) Total Return Index.

Salaries and bonuses for our executive officers are based in part on the achievement of certain pre-determined performance metrics at the beginning of each fiscal year. The achievement of these objectives is measured against corporate and individual targets, as described earlier, and does not necessarily track the changes in the market value of our common shares.

Our long-term incentive plans are designed to align the interests of employees, including NEOs, with shareholders by linking a component of compensation to our common share performance. The mix of stock options and restricted stock units in our NEOs compensation is more heavily weighted towards stock options.

## Securities Authorized for Issuance Under Equity Compensation Plans

The following sets forth information in respect of securities authorized for issuance under our equity compensation plans as at December 31, 2010:

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights  (a)	Weighted average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)

Equity compensation plans not approved by securityholders	-	-	-

#### Note:

(1) A floating number of options equal to 10% of the aggregate number of our outstanding common shares has been approved by our shareholders.

#### **Pension Plan Benefits**

We do not have any pension plans for our employees. We have established a savings plan to assist employees in meeting their savings goals. See "Compensation Discussion and Analysis – Employee Stock Savings Plan".

## **Executive Share Ownership Guidelines**

Mr. Jonathan Wright has been appointed as our new President and Chief Executive Officer effective May 9, 2011. Our board believes it is important that Mr. Wright demonstrate his commitment to our stewardship through common share ownership. Pursuant to his employment agreement, Mr. Wright is required to acquire common shares with a value equivalent of two times his annual base salary within two years of his appointment. Following this phase-in period, Mr. Wright is expected to be in continuous compliance with this requirement. In the event that Mr. Wright has achieved the target ownership and the value of our common shares subsequently falls below such target ownership level due solely to a decline in the market price of our common shares, Mr. Wright will be considered to be in compliance with ownership guidelines as long as the adjusted cost base of his common shares exceeds the target ownership level.

  change of control, the NEO has the right, for a period of ninety days following the event or events that
  constituted the change of control, to elect to terminate his employment upon providing us with one week
  advance written notice.
- In the event of a change of control and the NEO elects to terminate his employment, the NEO will be required, at our option, to continue his employment with us for a period of up to two months at the NEO's then existing compensation package, to assist us in an orderly transition of management.

## STATEMENT OF CORPORATE GOVERNANCE PRACTICES

#### **Board of Directors**

All of our current directors are independent. Our board has determined that Messrs. Comber, Karkkainen, MacPhail, Poelzer, Woitas and Zawalsky are independent. Our board has determined that Mr. Wright will not be independent as he will be our President and Chief Executive Officer.

#### **Independence Analysis**

W. Peter Comber, Pentti O. Karkkainen and Clayton H. Woitas

None of Messrs. Comber, Karkkainen or Woitas have any current or past business relationship with us other than as independent directors.

Keith A. MacPhail and Ronald J. Poelzer

Messrs. MacPhail and Poezler had a past business relationship with us. Mr. MacPhail is the Chairman and Chief Executive Officer and Mr. Poelzer is the Vice Chairman and Executive Vice President of Bonavista Energy Corporation ("Bonavista"), but we no longer have any ongoing service relationship or partnership relationship with Bonavista. In 2003, as part of a plan of arrangement with Bonavista, we entered into a Technical Services Agreement with Bonavista (the "TSA") pursuant to which Bonavista employees were also our employees and provided services to us in respect of the management, development, exploitation and operation of our assets. Under the TSA. Bonavista also provided various administrative services, as well as access to geological and technical data relating to our assets. Effective January 1, 2007, the terms of the TSA were amended to reflect the reduced level of services to be provided by Bonavista. On August 31, 2007, the TSA was terminated and Messrs. MacPhail and Poelzer ceased to be employees of NuVista. The TSA was replaced with a services agreement (the "Services Agreement") that reflected the remaining specified services to be provided by Bonavista which consisted primarily of the provision of office space, oil and natural gas marketing services, reception services and some information technology services. On November 1, 2008, the Services Agreement was terminated and Bonavista no longer provided any ongoing services to us. In addition, in February 2011, we entered into a series of transactions with Bonavista to separate our partnership ownership of certain crude oil and natural gas assets held through NuVista Energy, a partnership between NuVista and Bonavista. Our board has concluded that Messrs MacPhail and Poelzer are independent and capable of exercising independent judgment after considering, among other thing:

- that more than 3 years have elapsed since either Messrs. MacPhail and Poelzer were our employees;
- that Bonavista no longer provides any services to us;
- that the partnership relationship between us and Bonavista has been terminated;
- their share ownership position and personal financial circumstances; and
- the statutory guidance with respect to the meaning of independence contained in National Instrument 58-101 – *Disclosure of Corporate Governance Practises*.

#### Grant A. Zawalsky

Mr. Zawalsky is a partner of Burnet, Duckworth & Palmer LLP who provide legal services to us. Our board has concluded that Mr. Zawalsky is independent and capable of exercising independent judgment after considering, among other thing:

- that the fees charged by Burnet, Duckworth & Palmer LLP to us is less than 1% of Burnet, Duckworth & Palmers LLP's total income;
- his equity interest in Burnet, Duckworth & Palmer LLP;
- his common share ownership position and personal financial circumstances; and
- the statutory guidance with respect to the meaning of independence contained in National Instrument 58-101 *Disclosure of Corporate Governance Practises*.

The following directors are presently directors of other issuers that are reporting issuers (or the equivalent):

Director	Names of Other Issuers
W. Peter Comber	Sure Energy Inc.
Pentti O. Karkkainen	None
Keith A. MacPhail	Bonavista Energy Corporation and Canadian Natural Resources Limited
Ronald J. Poelzer	Bonavista Energy Corporation
Clayton H. Woitas	EnCana Corporation and EnerMark Inc.
Jonathan Wright	None
Grant A. Zawalsky	Zargon Oil & Gas Ltd. and Whitecap Resources Inc.

## **Ethical Business Conduct**

Our board has adopted a Code of Business Conduct and Ethics, a copy of which is available to review at www.sedar.com.

Each employee, officer and director confirms annually that he or she has read, understood and complied with the code. Any reports of variance from the code are reported to the board.

#### **Board Nomination**

We have established a Governance and Nominating Committee which, among other things, has the responsibility for establishing a nomination process and making recommendations to the board with respect to nomination of directors. See "Board Committees – Governance and Nominating Committee" for a summary of the committee's mandate. The Governance and Nominating Committee is composed entirely of independent directors. In accordance with the mandate of the Governance and Nominating Committee, the guidelines include considering what competencies and skills the board, as a whole, should possess, the competencies and skills the board considers each existing director to possess and the competencies and skills each proposed nominee will bring to the board as well as whether the new nominee can devote sufficient time and resources to his or her duties as a member of the board. In seeking nominees, the Governance and Nominating Committee encourages input from all members of the board and may use the services of professional recruiters if required.

#### **Board Assessment**

We have a formal process of assessing the board and its committees or the individual directors, under the direction of the Governance and Nominating Committee. Our process consists of an annual written director self assessment completed by all directors as well as one-on-one personal interviews conducted by our Chairman with each member of the board. The board has satisfied itself that the board, its committees and individual directors are performing effectively through this process.

# **Position Descriptions**

Our board has developed position descriptions for each of the Chairman, the President and Chief Executive Officer and the chairman of each committee of our board.
